## Birdfeeders Are A Great Tool To Use To Study Birds

A good way to study birds in the winter is to set up a birdfeeder. Place the feeder in an area that is easy to see, like in front of a Window. Use this guide to help identify birds that visit your feeder.

### Birds Need Water, Too!

Birds need water every day, even during the winter. A birdbath with fresh unfrozen water will be attractive to many winter visitors.
